General Consent to Treat

I have the legal right to consent to medical treatment because (a) I am the patient or (b) I am the guardian of the patient.

All references to “patient”, “me” and “my” in this document means: _____ (name of patient).

I voluntarily authorize and consent to the medical care, treatment, and diagnostic tests that the providers at Presbyterian Medical Care Mission and their designated associates or assistants believe are necessary. I also consent to the taking of photographs or films related to the care and treatment of the patient and understand that such photographs or films may be made part of the medical record. I understand that by signing this form, I am giving permission to the doctors, family nurse practitioners, physician assistants, nurses, and other health care providers in the medical office to provide treatment as long as a physician/patient relationship exists, or until I withdraw my consent.

Sharing Records for Treatment

We share medical records electronically with other healthcare providers to allow and promote continuity of care among providers. If you visit another provider who also participates in an electronic medical system, they may have access to your medical record.

Voicemail Messaging

As a service to our patients, Presbyterian Medical Care Mission provides courtesy appointment reminder calls and possible other important calls that may be placed using a prerecorded auto messaging system. The information may include protected health information. By initialing below, you consent to receiving such calls at the phone number you have provided to us.

Electronic Prescriptions (E-Prescribing)/Medication History

I voluntarily authorize Presbyterian Medical Care Mission to allow E-Prescribing for prescriptions, which allows health care providers to electronically transmit prescriptions to the pharmacy of my choice, review pharmacy benefit information and medication dispense history as long as a physician/patient relationship exists, or until I withdraw my consent. This includes prescription medication to treat AIDS/HIV, Hepatitis C, and medicines used to treat mental health issues such as depression. I give permission for my healthcare provider to obtain my medical or medication history from my pharmacy, health plans, hospital, or other healthcare providers.

Acknowledgment: Notice of Privacy Practices

I acknowledge receiving Notice of Privacy Practices (“Notice”). The Notice explains how Presbyterian Medical Care mission may use and disclose the patient’s protected health information for treatment, payment and health care operations purpose. “Protected health information” means the patient’s personal health information found in the patient’s medical and billing records.

I have read this form and I have had an opportunity to ask questions about it.

Electronic Communication Agreement

Presbyterian Medical Care Mission (“PMCM”) is committed to providing high-quality, accessible care to our patients. As part of this commitment, PMCM utilizes secure electronic communication tools to improve convenience, streamline access to services, and enhance coordination of care. These tools may include text messaging and electronic exchange of information to better serve our patients in a timely and efficient manner.

Protection of Patient Information

Presbyterian Medical Care Mission (“PMCM”) is committed to safeguarding the privacy and security of our patients’ protected health information (PHI). PMCM employs reasonable administrative, technical, and physical safeguards that are appropriate to our mission, size, and nonprofit resources to protect PHI from unauthorized access, use, or disclosure.

Resource Limitations and Cybersecurity Constraints

As a nonprofit healthcare provider, PMCM operates with inherently limited financial and technological resources. These constraints may affect the scope and sophistication of cybersecurity measures that PMCM can realistically implement, even as PMCM endeavors to follow recognized best practices for data protection and risk mitigation consistent with nonprofit-sector guidance.

Acknowledgment of Cyber Risk

Despite PMCM’s reasonable efforts, no system can guarantee absolute security. Cybersecurity events, including unauthorized access or data breaches, may occur even when an organization employs prudent and industry-appropriate safeguards, a risk that nonprofit organizations disproportionately face due to resource limitations and increased targeting by cybercriminals.

Limitation of Liability

By receiving services from PMCM, the patient acknowledges that PMCM’s responsibility for any inadvertent disclosure of PHI resulting from a cybersecurity incident shall be limited to the extent of PMCM’s **negligence that amounts to reckless disregard for data security**, taking into account the organization’s limited resources and mission to provide essential medical care to those in need. PMCM does not disclaim obligations imposed by applicable law but affirms that its liability, if any, shall reflect only its degree of fault under the circumstances.
